

# Who Are We?

Hello! We are a FIRST Tech Challenge (FTC) team named Strike Bots #16595 from Southeast Calgary, Canada. We have been a team since 2019, and are still improving every single year! We are part of a bigger organisation named Alberta Tech Alliance Association; a non-profit that supports STEM education through FIRST robotics programs. Learn more about them at <https://ataarobotics.ca/>

When we first started, we were focused on just building our robot for competitions, but over time we've worked on expanding our outreach. This following year we are hoping to get more kids interested in STEAM, helping out other robotics teams, and using our knowledge about STEAM to help others.
